The majority of those coveted movie star smiles are achieved with veneers, many of which were created right here in our Upper East Side office.

Porcelain dental veneers are a beautiful way to straighten, improve and whiten stained, chipped, or crooked teeth. By placing 'life-like' ultra-thin ceramic porcelain on the surface of teeth, Dr. Davidowitz delivers bright, straight, and natural-looking smiles. Our veneers are fabricated by the top of the line ceramicists at the best dental laboratories in the country.
